## Experience

### Google

Web Studio  
Web Designer + Developer  
Mar 2011 - present

- Design user friendly microsites to inform users and businesses about Google's products.
- Work cross-functionally with marketers, architects, developers, product teams, researchers and engineers.
- Design and develop reusable web components in JavaScript (Google Closure) to allow other developers to create rich and interactive pages.

### Google

Graphics Team  
Graphic Designer + Doodler  
May 2006 - Feb 2011

- Managed brand refresh, created hundreds of icons, and wrote style guides to ensure brand consistency.
- Centralized and archived assets for maintainability.
- Led weekly graphics team review meetings to ensure quality and consistency of graphics.

### PaperDemon.com

Owner  
Designer + Developer  
Sept 2002 - present

- Developed custom art, writing, and comics submission system with a user-friendly interface.
  - Developed user registration and forum systems.
  - Utilized "responsive web design" techniques.
- 

## Fun Facts
